Challenge 4 Answer Key

1. Create an original story using a dataset of your choice. *(20 points)*

10 Points: One table, plot, or model was created for a chosen dataset.
10 Point: The included element and story were adequately explained.

2. Extra Credit - create additional elements to further your story. *(<=10 points)*

5 Points: At least one additional element was created. *5 Points*: Grader's choice - extra points should be awarded for creativity!

If warnings or messages are included in the RMarkdown output or the submission is longer than one page, deduct one point from the final score.
